

News Release

October 20, 2025

For Immediate Release

ESCO Contractors, LLC, an experienced and multi-faceted Integrated Construction Solutions Partner and service provider, is pleased to officially announce the hire of two new associates for our growing professional services group. Megan Keller and Brett Carlin join ESCO Contractors as Associate Project Scheduler and Associate Project Manager respectively.

Megan is a detail-oriented Associate Project Scheduler with over four years of experience in software development, data analysis, and systems integration. Having demonstrated strong analytical and technical skills, with a proven ability to clean and manage data, Megan has built functional dashboards in Power BI and supported full-stack development. She is skilled in collaborating with cross-functional teams, managing project updates, and streamlining workflows to enhance operational efficiency and support strategic goals. Megan is currently pursuing an M.S. in Data Analytics to further strengthen data-driven decision-making capabilities.

Brett is a dedicated and versatile professional with over 13 years of experience in utility construction, maintenance, materials management, and entry-level project coordination. His background includes hands-on work with electrical and gas service installations, energized systems, and utility-grade infrastructure, complemented by formal training in safety, equipment operation, and lean manufacturing practices. He brings a strong work ethic, attention to detail, and a collaborative mindset to every project. Brett's goal is to continue advancing both personally and professionally by contributing meaningful value to an organization through his technical expertise, leadership capabilities, and commitment to excellence.
